SUMMARY

Driven Software Engineer with 2+ years of experience in full-stack development, cybersecurity, and Citrix virtualization. Skilled in penetration testing, VAPT, OWASP Top 10, and building secure, scalable applications. Passionate about innovation and problem-solving

WORK EXPERIENCE

Software Engineer , Nuron Network Pvt Ltd   **Nov 2022 - Jan 2025**

- Created responsive, mobile-first web pages using HTML, CSS, and Bootstrap; designed user interfaces following global design standards.
- Designed dynamic content with Embedded JavaScript (EJS) to create templates for reusable code, enabling quick front-end development.
- Worked closely with UI/UX teams to convert wireframes and mockups into functional pages, adhering to design guidelines and best practices.
- Utilized modern front-end development tools, package managers, and version control systems to streamline the development process.
- Collaborated with the solution team to create custom applications on Zoho Creator based on client requirements.
- Wrote backend code in Deluge scripting, Zoho Creator's proprietary language, to apply complex business logic and automate workflows.
- Analyzed client requirements, created application architectures, and ensured that solutions met or exceeded client expectations.
- Trained and supported end-users in effectively utilizing and maintaining applications developed on Zoho Creator

INTERNSHIP & SKILL DEVELOPMENT

Citrix Virtualization and Remote Desktop Solutions   **Mar 2024- Present**

- Knowledge of Citrix Virtual Apps and Desktops (XenDesktop, XenApp) for remote desktop and application delivery.
- Familiar with Citrix Studio for managing virtual desktops and applications, and Citrix Director for monitoring and troubleshooting environments.
- Understanding of Citrix Workspace App for user access to virtual desktops and Citrix StoreFront for secure authentication.
- Basic understanding of virtualization principles and the use of Citrix Hypervisor (XenServer) for virtual machine management.
- Awareness of Citrix NetScaler (ADC) for secure remote access, load balancing, and performance optimization in virtual environments.
- Understanding of Citrix Cloud for managing virtual desktops in cloud environments.

EyeQ Dot Net Pvt. Ltd   **Feb 2023 - Jan 2024**

- Completed training and internship with hands-on experience in OWASP Top 10, VAPT, bug hunting, and ethical hacking.
- Identified and mitigated 65+ web vulnerabilities, conducted network penetration testing with Kali Linux and industry-standard tools.

- Strengthened security frameworks through thorough assessments, cyber threat analysis, risk mitigation, and secure coding practices.

Complete Web Development Bootcamp – Udemy   **Jul 2024 - Dec 2024**

- Front-End & Back-End: HTML5, CSS3, Bootstrap 5, JavaScript (ES6), React.js, Node.js, Express.js, REST APIs, SQL, PostgreSQL
- Version Control & Deployment: Git, GitHub, GitHub Pages
- Additional Tools: Bash, EJS, Flexbox, Grid layout, 32+ real-world projects

Security Operations Center (SOC) Analyst Training – Udemy   **Dec 2024 - Mar 2024**

- SOC Operations & Incident Response: Monitoring, analyzing, and responding to security incidents using IDS, EDR, and other SOC technologies.
- Threat Detection & Response: Expertise in SIEM tools (Splunk, ELK, ArcSight) for event correlation and security analysis.
- Threat Intelligence & Security Fundamentals: Proactive defense strategies, understanding threat types, network security, and vulnerability management.

EDUCATION

A J Institute of Engineering and Technology   **Aug2018 - Aug 2022**
- Specialization in Computer Science Engineering.

Higher Secondary Education   **Jun 2016 - Mar 2018**
Nithyananda Bhavan English Medium School (CBSE)

Secondary Education   **Jun 2015 - Mar 2016**
Nithyananda Bhavan English Medium School (CBSE)

SKILLS

- **Operating System -** Linux, Windows, MacOS
- **Programming Language -** C++, Python, JavaScript
- **Web Development -** HTML, CSS, EJS, jQuery
- **Framework -** Bootstrap, Express.JS, React.JS
- **Database** - SQL, PostgreSQL, MongoDB
- **Version Control** - GitHub
- **API** - RESTful APIs, GraphQL, MapmyIndia, Mappls API
- **Runtime Environment** - Node.JS
- **Penetration Testing Tools** - Burp suite, Metasploit, Nmap, Wireshark
- **Zoho Creator** - Zoho Creator Development
- **Virtualization and Remote Desktop Solutions** - Citrix

CERTIFICATIONS

- Build a Face Recognition Application using Python
- 65+ web vulnerabilities, VAPT, bug hunting, ethical hacking, network penetration testing, Kali Linux, and other cybersecurity topics
- OWASP's top 10, Kali Linux, bug hunting, VAPT, ethical hacking, and other cybersecurity topics

LANGUAGE

- English - C2
- Hindi - B2
- Tamil - A1
- Malayalam - C1
